CONTRACT

FOR INFORMATICS PROFESSIONAL SERVICES

BETWEEN

PUBLIC WORKS AND GOVERNMENT SERVICES CANADA

AND

TPG TECHNOLOGY CONSULTING LTD.

This document contains a Security Requirement.

7.1 Requirement

- (a) TPG Technology Consulting Ltd. (the "Contractor") agrees to supply to the Client the services described in the Contract, including the Statement of Work, in accordance with, and at the prices set out in, the Contract. This includes providing professional services as and when requested by Canada, to one or more locations to be designated by Canada, excluding any locations in areas subject to any of the Comprehensive Land Claims Agreements.
- (b) Client: Under the Contract, the "Client" is Canada Border Services Agency (CBSA).
- (c) Reorganization of Client: The Contractor's obligation to perform the Work will not be affected by (and no additional fees will be payable as a result of) the renaming, reorganization, reconfiguration, or restructuring of any Client. The reorganization, reconfiguration and restructuring of the Client includes the privatization of the Client, its merger with another entity, or its dissolution, where that dissolution is followed by the creation of another entity or entities with mandates similar to the original Client. In connection with any form of reorganization, Canada may designate another department or government body as the Contracting Authority or Project authority, as required to reflect the new roles and responsibilities associated with the reorganization.
- (d) Defined Terms: Words and expressions defined in the General Conditions or Supplemental General Conditions and used in the Contract have the meanings given to them in the General Conditions or Supplemental General Conditions. Any reference to an Identified User in the Supply Arrangement is a reference to the Client. Also, any reference to a "deliverable" or "deliverables" includes all documentation outlined in this Contract. A reference to a "local office" of the Contractor means an office having at least one full time employee that is not a shared resource working at that location.

7.2 Task Authorization

- (a) As-and-when-requested Task Authorizations: The Work or a portion of the Work to be performed under the Contract will be on an "as-and-when-requested basis" using a Task Authorization (TA). The Work described in the TA must be in accordance with the scope of the Contract. The Contractor must not commence work until a validly issued TA has been issued by Canada and received by the Contractor. The Contractor acknowledges that any work performed before such issuance and receipt will be done at the Contractor's own risk.
- (b) Assessment of Resources Proposed at TA Stage: Processes for issuing, responding to and assessing Task Authorizations are further detailed in Appendices A, B, C and D of Annex A.
- (c) Form and Content of draft Task Authorization:
 - (i) The Project authority will provide the Contractor with a description of the task in a draft Task Authorization using the form specified in Annex A.
 - (ii) The draft Task Authorization will contain the details of the activities to be performed, and must also contain the following information:
 - (A) the task number;
 - (B) The date by which the Contractor's response must be received (which will appear in the draft Task Authorization, but not the issued Task Authorization);
 - (C) the categories of resources and the number required;
 - (D) a description of the work for the task outlining the activities to be performed and identifying any deliverables (such as reports);
 - (E) the start and completion dates:
 - (F) milestone dates for deliverables and payments (if applicable);
 - (G) the number of person-days of effort required;

609EL

- (H) whether the work requires on-site activities and the location;
- (I) the language profile of the resources required;
- (J) the level of security clearance required of resources;
- (K) the price payable to the Contractor for performing the task, with an indication of whether it is a firm price or a maximum TA price (and, for maximum price task authorizations, the TA must indicate how the final amount payable will be determined; where the TA does not indicate how the final amount payable will be determined, the amount payable is the amount, up to the maximum, that the Contractor demonstrates was actually worked on the project, by submitting time sheets filled in at the time of the work by the individual resources to support the charges); and
- (L) any other constraints that might affect the completion of the task.
- (f) Contractor's Response to Draft Task Authorization: The Contractor must provide to the Project Authority, within 10 working days of receiving the draft Task Authorization (or within any longer time period specified in the draft TA), the proposed total price for performing the task and a breakdown of that cost, established in accordance with the Basis of Payment specified in the Contract. The Contractor's quotation must be based on the rates set out in the Contract. The Contractor will not be paid for preparing or providing its response or for providing other information required to prepare and validly issue the TA.
- (g) Task Authorization Limit and Authorities for Validly Issuing Task Authorizations:

To be validly issued, a TA must include the following signatures:

- (i) for any TA, inclusive of revisions, with a value less than or equal to \$300,000.00 (excluding Applicable Taxes), the TA must be signed by:
 - a. the Project Authority; and
 - b. A Representative from CBSA (Strategic Procurement and Material Management Division (SPMMD).
- (ii) for any TA with a value greater than this amount, a TA must be signed by:
 - a. the Project Authority;
 - b. A Representative from CBSA (Strategic Procurement and Material Management Division (SPMMD); and
 - c. The Contracting Authority.

Any TA that does not bear the appropriate signature(s) is not validly issued by Canada. Any work performed by the Contractor without receiving a validly issued TA is done at the Contractor's own risk. If the Contractor receives a TA that is not appropriately signed, the Contractor must notify the Contracting Authority. By providing written notice to the Contractor, the Contracting Authority may suspend the Client's ability to issue TA's at any time, or reduce the dollar value threshold described in sub-article (i) above; any suspension or reduction notice is effective upon receipt.

(h) Periodic Usage Reports:

(i) The Contractor must compile and maintain records on its provision of services to the federal government under Task Authorizations validly issued under the Contract. The Contractor must provide this data to Canada in accordance with the reporting requirements detailed. If some data is not available, the reason must be indicated. If services are not provided during a given period, the Contractor must still provide a "NIL" report. The data must be submitted on a quarterly basis to the Contracting Authority. From time to time, the Contracting Authority may also require an interim report during a reporting period.

(ii) The quarterly periods are defined as follows:

- (A) 1st quarter: April 1 to June 30;
- (B) 2rd quarter: July 1 to September 30;
- (C) 3rd quarter: October 1 to December 31; and
- (D) 4th quarter: January 1 to March 31.

The data must be submitted to the Contracting Authority no later than 15 calendar days after the end of the reporting period.

- (iii) Each report must contain the following information for each validly issued TA (as amended):
 - the Task Authorization number and the Task Authorization Revision number(s), if applicable;
 - (B) a title or a brief description of each authorized task;
 - (C) the name, Resource category and level of each resource involved in performing the TA, as applicable;
 - (D) the total estimated cost specified in the validly issued TA of each task, exclusive of Applicable Taxes:
 - (E) the total amount, exclusive of Applicable Taxes, expended to date against each authorized task:
 - (F) the start and completion date for each authorized task; and
 - (G) the active status of each authorized task, as applicable (e.g., indicate whether work is in progress or if Canada has cancelled or suspended the TA, etc.).
- (iv) Each report must also contain the following cumulative information for all the validly issued TA's (as amended):
 - (A) the amount, exclusive of Applicable Taxes, specified in the Contract (as last amended, as applicable) as Canada's total liability to the Contractor for all validly issued TA's; and
 - (B) the total amount, exclusive of Applicable Taxes, expended to date against all validly issued TA's.
- (i) Refusal of Task Authorizations or Submission of a Response which is not Valid: The Contractor is not required to submit a response to every draft TA sent to it by Canada. However, in addition to Canada's other rights to terminate the Contract, Canada may immediately, and without further notice, terminate the Contract for default in accordance with the General Conditions if the Contractor in at least three instances has either not responded or has not submitted a valid response when sent a draft TA. For greater clarity, each draft TA, which is identifiable by its task number, will only count as one instance. A valid response is one that is submitted within the required time period and meets all requirements of the draft TA issued, including proposing the required number of resources who each meet the minimum experience and other requirements of the categories identified in the draft TA at pricing not exceeding the rates set out in Annex B.
- (j) Consolidation of TA's for Administrative Purposes: The Contract may be amended from time to time to reflect all validly issued Task Authorizations to date, to document the Work performed under those TA's for administrative purposes.
- 7.3 Minimum Work Guarantee
- (a) In this clause,

- (i) "Maximum Contract Value" means the amount specified in the "Limitation of Expenditure" clause set out in the Contract; and
- (ii) "Minimum Contract Value" means \$20,000,00
- (b) Canada's obligation under the Contract is to request Work in the amount of the Minimum Contract Value or, at Canada's option, to pay the Contractor at the end of the Contract in accordance with sub-article (c), subject to sub-article (d). In consideration of such obligation, the Contractor agrees to stand in readiness throughout the Contract Period to perform the Work described in the Contract. Canada's maximum liability for work performed under the Contract must not exceed the Maximum Contract Value, unless an increase is authorized in writing by the Contracting Authority.
- (c) In the event that Canada does not request work in the amount of the Minimum Contract Value during the Contract Period, Canada must pay the Contractor the difference between the Minimum Contract Value and the total cost of the Work requested.
- (d) Canada will have no obligation to the Contractor under this article if Canada terminates the entire Contract
 - (i) for default:
 - (ii) for convenience as a result of any decision or recommendation of a tribunal or court that the contract be cancelled, re-tendered or awarded to another supplier; or
 - (iii) for convenience within ten business days of Contract award.

7.4 Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

(a) General Conditions:

(i) 2035 (2016-04-04), General Conditions - Higher Complexity - Services, apply to and form part of the Contract.

With respect to Section 30 - Termination for Convenience, of General Conditions 2035, Subsection 04 is deleted and replaced with the following Subsections 04, 05 and 06:

- 4. The total of the amounts, to which the Contractor is entitled to be paid under this section, together with any amounts paid, due or becoming due to the Contractor must not exceed the Contract Price.
- 5. Where the Contracting Authority terminates the entire Contract and the Articles of Agreement include a Minimum Work Guarantee, the total amount to be paid to the Contractor under the Contract will not exceed the greater of:
 - the total amount the Contractor may be paid under this section, together with any amounts paid, becoming due other than payable under the Minimum Revenue Guarantee, or due to the Contractor as of the date of termination, or
 - (b) the amount payable under the Minimum Work Guarantee, less any amounts paid, due or otherwise becoming due to the Contractor as of the date of termination.
- 6. The Contractor will have no claim for damages, compensation, loss of profit, allowance arising out of any termination notice given by Canada under this section except to the extent that this section expressly provides. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination.

(b) Supplemental General Conditions:

The following Supplemental General Conditions:

- (i) 4002 (2010-08-16), Supplemental General Conditions Software Development or Modification Services;
- (ii) 4007 (2010-08-16), Supplemental General Conditions Canada to Own Intellectual Property Rights in Foreground Information;

apply to and form part of the Contract.

7.5 Security Requirement

The following security requirements (SRCL #19 and related clauses provided by ISP) as set out under Annex "B" to the Supply Arrangement, applies to and forms part of the Contract.

SECURITY REQUIREMENT FOR CANADIAN SUPPLIER: PWGSC FILE COMMON-PS-SRCL#19

- (a) The Contractor must, at all times during the performance of the Contract, hold a valid Facility Security Clearance at the level of SECRET, issued by the Canadian Industrial Security Directorate (CISD), Public Works and Government Services Canada (PWGSC).
- (b) The Contractor personnel requiring access to PROTECTED/CLASSIFIED information, assets or sensitive work site(s) must EACH hold a valid personnel security screening at the level of SECRET as required, granted or approved by CISD/PWGSC.
- (c) The Contractor MUST NOT remove any PROTECTED/CLASSIFIED information from the identified work site(s), and the Contractor must ensure that its personnel are made aware of and comply with this restriction.
- (d) Subcontracts which contain security requirements are NOT to be awarded without the prior written permission of CISD/PWGSC.
- (e) The Contractor must comply with the provisions of the:
 - (i) Security Requirements Check List and security guide, attached at Annex C;
 - (ii) Industrial Security Manual (Latest Edition).
- (f) ADDITIONAL SECURITY REQUIREMENT: The CBSA, will conduct its own personnel Reliability Status assessment of the Contractor (specifically the Contractor personnel), which is allowed under the Treasury Board Secretariat of Canada's (TBS) "Security and Contracting Management Standard" and the Policy on Government Security Personnel Security Standard. Reliability Status assessment conducted by the CBSA will include a credit check.

If the Contractor (specifically the Contractor personnel), has already been screened under the TBS Policy on Government Security - Personnel Security Standard, the Contractor (specifically the Contractor personnel), will still undergo a security screening process to be conducted by the CBSA.

The credit check and fingerprinting*, if required, will be performed by an authorized security official with the CBSA's "Personnel Security Screening Section" (PSSS), which is independent of the Public Works and Government Services Canada's (PWGSC), "Canadian and International Industrial Security Directorate" (CIISD).

Until the credit check, fingerprinting* (if required) and all other security screening processes required have been completed and the Contractor (specifically the Contractor personnel) is

47060-181852/001/EL

609EL

deemed suitable by the CBSA, the Contractor (specifically the Contractor personnel) will not be permitted access to Protected / Classified information or assets, and further, will not be permitted to enter sites where such information or assets are kept.

*Fees are applicable. Fingerprinting, if required, will be at the Bidder's cost.

7.6 Contract Period

- (a) Contract Period: The "Contract Period" is the entire period of time during which the Contractor is obliged to perform the Work, which includes:
 - (i) The "Initial Contract Period", which begins on the date the Contract is awarded and ends 1 year later; and
 - (ii) The period during which the Contract is extended, if Canada chooses to exercise any options set out in the Contract.

(b) Option to Extend the Contract:

- (i) The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to 4 additional one-year period(s) under the same terms and conditions. The Contractor agrees that, during the extended period of the Contract, it will be paid in accordance with the applicable provisions set out in the Basis of Payment.
- (ii) Canada may exercise this option at any time by sending a written notice to the Contractor before the expiry date of the Contract. The option may only be exercised by the Contracting Authority, and will be evidenced, for administrative purposes only, through a contract amendment.

7.7 **Authorities**

(i) **Contracting Authority**

The Contracting Authority for the Contract is:

Name:

Josée Bastien

Title:

Supply Team Leader

Public Works and Government Services Canada

Acquisitions Branch

Directorate:

Informatics and Telecommunications Systems Procurement Directorate

Address:

11 Laurier St., Gatineau, Québec

Telephone:

873-469-4982

E-mail address: Josee.Bastien@tpsqc-pwqsc.qc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

(ii) **Project Authority**

The Project Authority for the Contract is:

Name:

Mario Plamondon

Title:

Manager - DM Production Support, ESD, ISTB, CBSA | GD

Support en production, DES, DGIST, ASFC

Organization:

Canada Border Service Agency (CBSA)

Telephone:

(343) 291-6813

E-mail address:

Mario.Plamondon@cbsa-asfc.qc.ca

The Project authority [is the representative of the department or agency for whom the Work is being carried out under the Contract and] is responsible for all matters concerning the technical 47060-181852/001/EL

content of the Work under the Contract. Technical matters may be discussed with the Project authority; however, the Project authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

(iii) Contractor's Representative

Name:

Mr. Donald R. Powell

Title:

President

Telephone:

(613) 798-7647

E-mail address:

7.8 Proactive Disclosure of Contracts with Former Public Servants

By providing information on its status, with respect to being a former public servant in receipt of a <u>Public Service Superannuation Act</u> (PSSA) pension, the Contractor has agreed that this information will be reported on departmental web sites as part of the published proactive disclosure reports, in accordance with <u>Contracting Policy Notice</u>: 2012-2 of the Treasury Board Secretariat of Canada.

7.9 Payment

(a) Basis of Payment

- (i) Professional Services provided under a Task Authorization with a Maximum Price: For professional services requested by Canada, in accordance with a validly issued Task Authorization, Canada will pay the Contractor, in arrears, up to the Maximum Price for the TA, for actual time worked and any resulting deliverables in accordance with the firm all-inclusive per diem rates set out in Annex B, Basis of Payment, Applicable Taxes extra. Partial days will be prorated based on actual hours worked based on a 7.5-hour workday.
- (ii) Professional Services provided under a Task Authorization with a Firm Price: For professional services requested by Canada, in accordance with a validly issued Task Authorization, Canada will pay the Contractor the firm price set out in the Task Authorization based on the firm, all-inclusive per diem rates set out in Annex B, Applicable Taxes extra.
- (iii) Competitive Award: The Contractor acknowledges that the Contract has been awarded as a result of a competitive process. No additional charges will be allowed to compensate for errors, oversights, misconceptions or underestimates made by the Contractor when bidding for the Contract.
- (iv) Professional Services Rates: In Canada's experience, bidders from time to time propose rates at the time of bidding for one or more Resource Categories that they later refuse to honour, on the basis that these rates do not allow them to recover their own costs and/or make a profit. This denies Canada of the benefit of the awarded contract. If the Contractor does not respond or refuses to provide an individual with the qualifications described in the Contract within the time described in the Contract (or proposes instead to provide someone from an alternate category at a different rate), whether or not Canada terminates the Contract as a whole or in part or chooses to exercise any of the rights provided to it under the general conditions, Canada may impose sanctions or take other measures in accordance with the PWGSC Vendor Performance Corrective Measure Policy (or equivalent) then in effect, which measures may include an assessment that results in conditions applied against the Contractor to be fulfilled before doing further business with Canada, or full debarment of the Contractor from bidding on future requirements.

(b) Limitation of Expenditure – Cumulative Total of all Task Authorizations

(i) Canada's total liability to the Contractor under the Contract for all validly issued Task Authorizations (TAs), inclusive of any revisions, must not exceed the amount set out on page 1 of the Contract, less any Applicable taxes. With respect to the amount set out on

- page 1 of the Contract, Customs duties are included or subject to exemption and Applicable Taxes are included
- (ii) No increase in the total liability of Canada will be authorized or paid to the Contractor unless an increase has been approved, in writing, by the Contracting Authority.
- (iii) The Contractor must notify the Contracting Authority in writing as to the adequacy of this sum:
 - (A) when it is 75 percent committed, or
 - (B) 4 months before the contract expiry date, or
 - (C) As soon as the Contractor considers that the sum is inadequate for the completion of the Work required in all authorized TAs, inclusive of any revisions,

whichever comes first.

- (i) If the notification is for inadequate contract funds, the Contractor must provide to the Contracting Authority a written estimate for the additional funds required. Providing this information does not increase Canada's liability.
- (c) Method of Payment for Task Authorizations with a Maximum Price: For each Task Authorization validly issued under the Contract that contains a maximum price:
 - (i) Canada will pay the Contractor no more frequently than once a month in accordance with the Basis of Payment. The Contractor must submit time sheets for each resource showing the days and hours worked to support the charges claimed in the invoice.
 - (ii) Once Canada has paid the maximum TA price, Canada will not be required to make any further payment, but the Contractor must complete all the work described in the TA, all of which is required to be performed for the maximum TA price. If the work described in the TA is completed in less time than anticipated, and the actual time worked (as supported by the time sheets) at the rates set out in the Contract is less than the maximum TA price, Canada is only required to pay for the time spent performing the work related to that TA.
- (d) Method of Payment for Task Authorizations with a Firm Price Lump Sum Payment on Completion: Canada will pay the Contractor upon completion and delivery of all the Work associated with the validly issued Task Authorization in accordance with the payment provisions of the Contract if:
 - an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
 - (ii) all such documents have been verified by Canada; and
 - (iii) the Work delivered has been accepted by Canada.
- (e) Electronic Payment of Invoices Contract

The Contractor accepts to be paid using any of the following Electronic Payment Instrument:

- (i) Direct Deposit (Domestic and International);
- (f) Time Verification

Time charged and the accuracy of the Contractor's time recording system are subject to verification by Canada, before or after payment is made to the Contractor. If verification is done after payment, the Contract must repay any overpayment, at Canada's request.

(g) No Responsibility to Pay for Work not performed due to Closure of Government Offices

- (i) Where the Contractor, its employees, subcontractors, or agents are providing services on government premises under the Contract and those premises are inaccessible because of the evacuation or closure of government offices, and as a result no work is performed, Canada is not responsible for paying the Contractor for work that otherwise would have been performed if there had been no evacuation or closure.
- (ii) If, as a result of any strike or lock-out, the Contractor or its employees, subcontractors or agents cannot obtain access to government premises and, as a result, no work is performed, Canada is not responsible for paying the Contractor for work that otherwise would have been performed if the Contractor had been able to gain access to the premises

7.10 Invoicing Instructions

- (a) The Contractor must submit invoices in accordance with the information required in the General Conditions.
- (b) The Contractor's invoice must include a separate line item for each subparagraph in the Basis of Payment provision, and must show all applicable Task Authorization numbers.
- (c) By submitting invoices, the Contractor is certifying that the goods and services have been delivered and that all charges are in accordance with the Basis of Payment provision of the Contract, including any charges for work performed by subcontractors.

The Contractor must provide the original and one copy of each invoice to the Project authority, and a copy to the Contracting Authority.

All invoices must be submitted using the following method (only one copy of the invoice should be sent to the Agency):

Email: Only legible electronic (PDF, Word, Excel) files will be accepted; all others will be returned.

vendors-fournisseurs@cbsa-asfc.gc.ca

This email address is to be used for submitting invoices and for payment status inquiries.

Direct Deposit:

The Government of Canada will soon be phasing out federal government cheques; we strongly encourage Businesses that supply goods and services to the Government of Canada to enrol in direct deposit for account payable.

Please contact <u>ca-ci@cbsa-asfc.gc.ca</u> to obtain additional information, to confirm direct deposit enrolment process and the steps to be followed.

IMPORTANT NOTE: If a supplier omits any required information pertaining to payment processing from the invoice, the invoice will be returned at the discretion of the CBSA and will not be paid until valid payment referencing is provided.

7.11 Certifications and Additional Information

(a) Unless specified otherwise, the continuous compliance with the certifications provided by the Contractor in its bid or precedent to contract award, any TA quotation and the ongoing cooperation in providing additional information are conditions of the Contract and failure to comply will constitute the Contractor in default. Certifications are subject to verification by Canada during the entire Contract Period.

7.12 Federal Contractors Program for Employment Equity - Default by Contractor

The Contractor understands and agrees that, when an Agreement to Implement Employment Equity (AIEE) exists between the Contractor and Employment and Social Development Canada (ESDC)-Labour.

the AIEE must remain valid during the entire period of the Contract. If the AIEE becomes invalid, the name of the Contractor will be added to the "FCP Limited Eligibility to Bid" list. The imposition of such a sanction by ESDC will constitute the Contractor in default as per the terms of the Contract.

7.13 Applicable Laws

47060-181852/001/EL

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

7.14 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the following list, the wording of the document that first appears on the list has priority over the wording of any document that appears later on the list:

- (a) these Articles of Agreement, including any individual SACC clauses incorporated by reference in these Articles of Agreement:
- (b) Supplemental General Conditions, in the following order:
 - 4002 (2010-08-16), Supplemental General Conditions Software Development or Modification Services;
 - (ii) 4007 (2010-08-16), Supplemental General Conditions Canada to Own Intellectual Property Rights in Foreground Information;
- (c) General Conditions 2035 (2016-04-04), Higher Complexity Services;
- (d) Annex A, Statement of Work Annex A including its Appendices as follows;
 - (i) Appendix A to Annex A Tasking Assessment Procedure;
 - (ii) Appendix B to Annex A Task Authorization (TA) Form;
 - (iii) Appendix C to Annex A Resource Assessment Criteria and Response Table;
 - (iv) Appendix D to Annex A Certifications at the TA stage;
 - (v) Appendix E to Annex A Non-Disclosure Agreement.
- (e) Annex B, Basis of Payment;
- (f) Annex C, Security Requirements Check List;
- (g) the validly issued Task Authorizations and any required certifications (including all of their annexes, if any); and
- (h) the Contractor's bid dated December 11, 2017, as amended on January 9, 2018.

7.15 Insurance Requirements

(a) Compliance with Insurance Requirements

- (i) The Contractor must comply with the insurance requirements specified in this Article. The Contractor must maintain the required insurance coverage for the duration of the Contract. Compliance with the insurance requirements does not release the Contractor from or reduce its liability under the Contract.
- (ii) The Contractor is responsible for deciding if additional insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any additional insurance coverage is at the Contractor's expense, and for its own benefit and protection.
- (iii) The Contractor should forward to the Contracting Authority within ten (10) days after the date of award of the Contract a Certificate of Insurance evidencing the insurance coverage. Coverage must be placed with an Insurer licensed to carry out business in

609EL

Canada and the Certificate of Insurance must confirm that the insurance policy complying with the requirements is in force. If the Certificate of Insurance has not been completed and submitted as requested, the Contracting Authority will so inform the Contractor and provide the Contractor with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within the time period will constitute a default under the General Conditions. The Contractor must, if requested by the Contracting Authority, forward to Canada a certified true copy of all applicable insurance policies.

(b) Commercial General Liability Insurance

- (i) The Contractor must obtain Commercial General Liability Insurance, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but for not less than \$2,000,000 per accident or occurrence and in the annual aggregate.
- (ii) The Commercial General Liability policy must include the following:
 - (A) Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada should read as follows: Canada, as represented by Public Works and Government Services Canada.
 - (B) Bodily Injury and Property Damage to third parties arising out of the operations of the Contractor.
 - (C) Products and Completed Operations: Coverage for bodily injury or property damage arising out of goods or products manufactured, sold, handled, or distributed by the Contractor and/or arising out of operations that have been completed by the Contractor.
 - (D) Personal Injury: While not limited to, the coverage must include Violation of Privacy, Libel and Slander, False Arrest, Detention or Imprisonment and Defamation of Character.
 - (E) Cross Liability/Separation of Insured: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
 - (F) Blanket Contractual Liability: The policy must, on a blanket basis or by specific reference to the Contract, extend to assumed liabilities with respect to contractual provisions.
 - (G) Employees and, if applicable, Volunteers must be included as Additional Insured.
 - (H) Employers' Liability (or confirmation that all employees are covered by Worker's compensation (WSIB) or similar program)
 - (I) Broad Form Property Damage including Completed Operations: Expands the Property Damage coverage to include certain losses that would otherwise be excluded by the standard care, custody or control exclusion found in a standard policy.
 - (J) Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of policy cancellation.
 - (K) If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Contract.
 - (L) Owners' or Contractors' Protective Liability: Covers the damages that the Contractor becomes legally obligated to pay arising out of the operations of a subcontractor.

(M) Advertising Injury: While not limited to, the endorsement must include coverage for piracy or misappropriation of ideas, or infringement of copyright, trademark, title or slogan.

(c) Errors and Omissions Liability Insurance

- (i) The Contractor must obtain Errors and Omissions Liability (a.k.a. Professional Liability) insurance, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature but for not less than \$1,000,000 per loss and in the annual aggregate, inclusive of defence costs.
- (ii) If the Professional Liability insurance is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Contract.
- (iii) The following endorsement must be included:
 Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of cancellation.

7.16 Limitation of Liability - Information Management/Information Technology

(a) This section applies despite any other provision of the Contract and replaces the section of the general conditions entitled "Liability". Any reference in this section to damages caused by the Contractor also includes damages caused by its employees, as well as its subcontractors, agents, and representatives, and any of their employees. This section applies regardless of whether the claim is based in contract, tort, or another cause of action. The Contractor is not liable to Canada with respect to the performance of or failure to perform the Contract, except as described in this section and in any section of the Contract pre-establishing any liquidated damages. The Contractor is only liable for indirect, special or consequential damages to the extent described in this Article, even if it has been made aware of the potential for those damages.

(b) First Party Liability:

- (i) The Contractor is fully liable for all damages to Canada, including indirect, special or consequential damages, caused by the Contractor's performance or failure to perform the Contract that relate to:
 - (A) any infringement of intellectual property rights to the extent the Contractor breaches the section of the General Conditions entitled "Intellectual Property Infringement and Royalties";
 - (B) physical injury, including death.
- (ii) The Contractor is liable for all direct damages caused by the Contractor's performance or failure to perform the Contract affecting real or tangible personal property owned, possessed, or occupied by Canada.
- (iii) Each of the Parties is liable for all direct damages resulting from any breach of confidentiality under the Contract. Each of the Parties is also liable for all indirect, special or consequential damages in respect of any unauthorized disclosure of the other Party's trade secrets (or trade secrets of a third party provided by one Party to another under the Contract) relating to information technology.
- (iv) The Contractor is liable for all direct damages relating to any encumbrance or claim relating to any portion of the Work for which Canada has made any payment. This does not apply to encumbrances or claims relating to intellectual property rights, which are addressed under (i)(A) above.
- (v) The Contractor is also liable for any other direct damages to Canada caused by the Contractor's performance or failure to perform the Contract that relate to:

(A) any breach of the warranty obligations under the Contract, up to the total amount paid by Canada (including any applicable taxes) for the goods and services affected by the breach of warranty; and

(B) Any other direct damages, including all identifiable direct costs to Canada associated with re-procuring the Work from another party if the Contract is terminated either in whole or in part for default, up to an aggregate maximum for this subparagraph (B) of the greater of .75 times the total estimated cost (meaning the dollar amount shown on the first page of the Contract in the cell titled "Total Estimated Cost" or shown on each call-up, purchase order or other document used to order goods or services under this instrument), or \$1,000,000.00.

In any case, the total liability of the Contractor under subparagraph (v) will not exceed the total estimated cost (as defined above) for the Contract or \$1,000,000.00, whichever is more.

(vi) If Canada's records or data are harmed as a result of the Contractor's negligence or willful act, the Contractor's only liability is, at the Contractor's own expense, to restore Canada's records and data using the most recent back-up kept by Canada. Canada is responsible for maintaining an adequate back-up of its records and data.

(c) Third Party Claims:

- (i) Regardless of whether a third party makes its claim against Canada or the Contractor, each Party agrees that it is liable for any damages that it causes to any third party in connection with the Contract as set out in a settlement agreement or as finally determined by a court of competent jurisdiction, where the court determines that the Parties are jointly and severally liable or that one Party is solely and directly liable to the third party. The amount of the liability will be the amount set out in the settlement agreement or determined by the court to have been the Party's portion of the damages to the third party. No settlement agreement is binding on a Party unless its authorized representative has approved the agreement in writing.
- (ii) If Canada is required, as a result of joint and several liability or joint and solidarily liable, to pay a third party in respect of damages caused by the Contractor, the Contractor must reimburse Canada by the amount finally determined by a court of competent jurisdiction to be the Contractor's portion of the damages to the third party. However, despite Subarticle (i), with respect to special, indirect, and consequential damages of third parties covered by this Section, the Contractor is only liable for reimbursing Canada for the Contractor's portion of those damages that Canada is required by a court to pay to a third party as a result of joint and several liability that relate to the infringement of a third party's intellectual property rights; physical injury of a third party, including death; damages affecting a third party's real or tangible personal property; liens or encumbrances on any portion of the Work; or breach of confidentiality.
- (iii) The Parties are only liable to one another for damages to third parties to the extent described in this Sub-article (c).

7.17 Professional Services - General

- (a) The Contractor must provide professional services on request as specified in this Contract. All resources provided by the Contractor must meet the qualifications described in the Contract (including those relating to previous experience, professional designation, education, language proficiency and security clearance) and must be competent to provide the required services by any delivery dates described in the Contract.
- (b) If the Contractor fails to deliver any deliverable (excluding delivery of a specific individual) or complete any task described in the Contract on time, in addition to any other rights or remedies available to Canada under the Contract or the law, Canada may notify the Contractor of the

deficiency, in which case the Contractor must submit a written plan to the Project authority within ten working days detailing the actions that the Contractor will undertake to remedy the deficiency. The Contractor must prepare and implement the plan at its own expense.

(c) In General Conditions 2035, the Article titled "Replacement of Specific Individuals" is deleted and the following applies instead:

Replacement of Specific Individuals

- (i) If the Contractor is unable to provide the services of any specific individual identified in the Contract to perform the services, the Contractor must within five working days of having this knowledge, the individual's departure or failure to commence Work (or, if Canada has requested the replacement, within ten working days of Canada's notice of the requirement for a replacement) provide to the Contracting Authority:
 - the name, qualifications and experience of a proposed replacement immediately available for Work; and
 - (B) security information on the proposed replacement as specified by Canada, if applicable.

The replacement must have qualifications and experience that meet or exceed those obtained for the original resources.

- (ii) Subject to an Excusable Delay, where Canada becomes aware that a specific individual identified under the Contract to provide services has not been provided or is not performing, the Contracting Authority may elect to:
 - (A) exercise Canada's rights or remedies under the Contract or at law, including terminating the Contract in whole or in part for default under the Article titled "Default of the Contractor"; or
 - (B) assess the information provided under (c) (i) above or, if it has not yet been provided, require the Contractor to propose a replacement to be rated by the Project authority. The replacement must have qualifications and experience that are similar or exceed those obtained for the original resource and be acceptable to Canada. Upon assessment of the replacement, Canada may accept the replacement, exercise the rights in (ii) (A) above, or require another replacement in accordance with this sub-article (c).

Where an Excusable Delay applies, Canada may require (c) (ii) (B) above instead of terminating under the "Excusable Delay" Article. An Excusable Delay does not include resource unavailability due to allocation of the resource to another Contract or project (including those for the Crown) being performed by the Contractor or any of its affiliates.

- (iii) The Contractor must not, in any event, allow performance of the Work by unauthorized replacement persons. The Contracting Authority may order that an original or replacement resource stop performing the Work. In such a case, the Contractor must immediately comply with the order. The fact that the Contracting Authority does not order a resource to stop performing the Work does not relieve the Contractor from its responsibility to meet the requirements of the Contract.
- (iv) The obligations in this article apply despite any changes that Canada may have made to the Client's operating environment.

7.18 Safeguarding Electronic Media

(a) Before using them on Canada's equipment or sending them to Canada, the Contractor must use a regularly updated product to scan electronically all electronic media used to perform the Work for computer viruses and other coding intended to cause malfunctions. The Contractor must notify Canada if any electronic media used for the Work are found to contain computer viruses or other coding intended to cause malfunctions.

(b) If magnetically recorded information or documentation is damaged or lost while in the Contractor's care or at any time before it is delivered to Canada in accordance with the Contract, including accidental erasure, the Contractor must immediately replace it at its own expense.

7.19 Representations and Warranties

The Contractor made statements regarding its own and its proposed resources' experience and expertise in its bid that resulted in the award of the Contract and the issuance of TA's. The Contractor represents and warrants that all those statements are true and acknowledges that Canada relied on those statements in awarding the Contract and adding work to it through TA's. The Contractor also represents and warrants that it has, and all its resources and subcontractors that perform the Work have, and at all times during the Contract Period they will have and maintain, the skills, qualifications, expertise and experience necessary to perform and manage the Work in accordance with the Contract, and that the Contractor (and any resources or subcontractors it uses) has previously performed similar services for other customers.

7.20 Access to Canada's Property and Facilities

Canada's property, facilities, equipment, documentation, and personnel are not automatically available to the Contractor. If the Contractor would like access to any of these, it is responsible for making a request to the Project authority. Unless expressly stated in the Contract, Canada has no obligation to provide any of these to the Contractor. If Canada chooses, in its discretion, to make its property, facilities, equipment, documentation or personnel available to the Contractor to perform the Work, Canada may require an adjustment to the Basis of Payment and additional security requirements may apply.

7.21 Identification Protocol Responsibilities

The Contractor will be responsible for ensuring that each of its agents, representatives or subcontractors (hereinafter referred to as Contractor Representatives) complies with the following self-identification requirements:

- (a) Contractor Representatives who attend a Government of Canada meeting (whether internal or external to Canada's offices) must identify themselves as Contractor Representatives prior to the commencement of the meeting, to ensure that each meeting participant is aware of the fact that the individual is not an employee of the Government of Canada;
- (b) During the performance of any Work at a Government of Canada site, each Contractor Representative must be clearly identified at all times as being a Contractor Representative; and
- (c) If a Contractor Representative requires the use of the Government of Canada's e-mail system in the performance of the Work, then the individual must clearly identify him or herself as an agent or subcontractor of the Contractor in all electronic mail in the signature block as well as under "Properties." This identification protocol must also be used in all other correspondence, communication, and documentation.
- (d) If Canada determines that the Contractor is in breach of any obligation stated in this Article, upon written notice from Canada the Contractor must submit a written action plan describing corrective measures it will implement to eliminate the recurrence of the problem. The Contractor will have five working days to deliver the action plan to the Client and the Contracting Authority, and twenty working days to rectify the underlying problem.
- (e) In addition to any other rights it has under the Contract, Canada may terminate the Contract for default if the corrective measures required of the Contractor described above are not met.

7.22 NON-DISCLOSURE AGREEMENT

The Contractor must obtain from its employee(s) or subcontractor(s) the completed and signed non-disclosure agreement, which can be found in Appendix D to Annex A, and provide it to the Contracting Authority before they are given access to information by or on behalf of Canada in connection with the Work.

ANNEX A STATEMENT OF WORK

1. BACKGROUND

The Data Management and Data Warehouse Division of the Canada Border Services Agency (CBSA) require Database Administrators to support the Agency's systems initiatives. The systems are high performance, high availability, mission critical national systems, built with Websphere/Java and DB2, executing within a Z/OS environment, supporting the Agency's activities.

2. SCOPE OF WORK

IT Professional services for up to 8 Database Administrators (DBA), Level 3, will be required during the period of the Contract of one year from the date of contract with the option to extend for four additional 1-year periods.

3. TASKS

The tasks may include, but are not limited to:

- 1) Defining new database structures;
- 2) Defining data conversion strategy;
- 3) Designing data conversions with high volumes and continuous availability;
- 4) Customizing database conversion routines;
- 5) Generating new database with the client;
- 6) Working closely with the users in order to maintain and safeguard the database:
- 7) Identifying requirements for improvements to existing databases by determining users' information requirements and system performance and functional requirements;
- 8) Developing, documenting and implementing procedures that will ensure the accuracy, completeness, and timeliness of data stored in the database;
- 9) Mediating and resolving conflicts among users' needs for data;
- 10) Developing, documenting and implementing security procedures for the database, including access and user account management;
- 11) Advising programmers, analysts, and users about the efficient use of data:
- 12) Maintaining configuration control of the database;
- 13) Performing and coordinating updates to the database design;
- 14) Controlling and coordinating changes to the database, including the deletion of records, changes to the existing records, additions to the database;
- 15) Developing and coordinating back-up, disaster recovery and virus protection procedures.
- 16) Participating in the testing phases of the different deliverables;
- 17) Participating in database walkthroughs and reviews;
- Preparing documentation on different database components of the Canada Border Services initiatives.
- 19) Coaching, mentoring and training database administrators to perform any of the above.

4. TECHNICAL ENVIRONMENT

- 1) IBM DB2 RDBMS. (Relational Database Management System)
- 2) zOS/MVS Environment
- 3) CA Database Management Solutions for DB2 (Platinum)
- 4) ERWin Data Modeler
- 5) IBM Data Studio
- 6) IBM Information Server suite (Information Analyzer, Metadata Workbench, Business Glossary)
- 7) IBM InfoSphere Data Architect

5. CLIENT SUPPORT

The CBSA Data Management team will provide an appropriate workspace with access to the appropriate tools for the resources to carry out the expectations set out in this SOW.

The contractor will be provided with a CBSA user ID, password, workstation or laptop, email address, and other materials (supporting documentation) as required in order to process, store, and/or transmit CBSA data on the CBSA network during the contract. The use of contractor IT systems is not permitted.

6. DELIVERABLES

Deliverables include, but are not limited to, the following:

- a) Development of technical documentation and procedures regarding database implementations, as required, documents will be provided in MS Word format. Documents will be delivered as initial drafts to the Project Authority and as final documents after any required revisions are completed;
- Ongoing analysis of current environments and providing of recommendations where necessary for increasing and optimizing performance. The recommendations will be provided as ongoing status reports delivered to the Project Authority;
- Perform monitoring of query usage and recommend ways to modify tables for increased performance (e.g., adding indices, joining tables, adding foreign keys, etc.); Iterative deliverables to be provided to the Project Authority; after individual project implementations;
- d) Perform ongoing daily DBA activities as required including defining new database structures, maintenance of data dictionaries, schema implementation, monitoring and performance tuning and troubleshooting; provide weekly status reports documenting these activities to the Project Authority

All deliverables are to be provided in English.

7. CONSTRAINTS

At no time and in no way is CBSA data to be removed from CBSA sites, nor will access to or from the contractor's IT systems through the use of a session or ling (e.g VPN) be permitted.

The contractor must comply with CBSA internal security policies, directives, standards, and guidelines at all times during the contract.

8. REPORTING REQUIREMENTS

Timesheets are to be provided on a monthly depicting hours worked on a daily basis.

9. WORK LOCATION

All work will be performed in the National Capital Region on-site at CBSA offices.

The current Primary Office location is 333 North River Rd Ottawa, Ontario.

APPENDIX A TO ANNEX A TASKING ASSESSMENT PROCEDURE

- 1. Where a requirement for a specific task is identified, a draft Task Authorization Form (TA Form) as attached at Appendix B to Annex A will be provided to the Contractor. Once a draft TA Form is received, the Contractor must submit to the Project authority a quotation of rates to supply the requested Resource Categories based on the information identified in the TA Form. The quotation must be signed and submitted to Canada within the time for response identified in the TA Form. The Contractor will be given a minimum of 5 days turnaround time to submit a quotation.
- 2. For each proposed resource the Contractor must supply a résumé, the requested security clearance information and must complete the Response Tables at Appendix C of Annex A applicable to the Resource Categories identified in the draft TA. The same individual must not be proposed for more than one Resource Category. The résumés must demonstrate that each proposed individual meets the qualification requirements described (including any educational requirements, work experience requirements, and professional designation or membership requirements). With respect to the proposed resources:
 - (i) Proposed resources may be employees of the Contractor or employees of a subcontractor, or these individuals may be independent contractors to whom the Contractor would subcontract a portion of the Work. (Refer to Appendix D to Annex A, Certifications).
 - (ii) For educational requirements for a particular degree, designation or certificate, Canada will only consider educational programmes that were successfully completed by the resource before the date the draft TA was first issued to the Contractor.
 - (iii) For requirements relating to professional designation or membership, the resource must have the required designation or membership by the time of draft TA issuance and must continue, where applicable, to be a member in good standing of the profession or membership throughout the assessment period and Contract Period. Where the designation or membership must be demonstrated through a certification, diploma or degree, such document must be current, valid and issued by the entity specified in this Contract or if the entity is not specified, the issuer must have been an accredited or otherwise recognized body, institution or entity at the time the document was issued.
 - (iv) For work experience, Canada will not consider experience gained as part of an educational programme, except for experience gained through a formal co-operative programme at a post-secondary institution.
 - (v) For any requirements that specify a particular time period (e.g., 2 years) of work experience, Canada will disregard any information about experience if the résumé does not include the relevant dates (month and year) for the experience claimed (i.e., the start date and end date). Canada will evaluate only the duration that the resource actually worked on a project or projects (from his or her start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.
 - (vi) A résumé must not simply indicate the title of the individual's position, but must demonstrate that the resource has the required work experience by explaining the responsibilities and work performed by the individual while in that position. Only listing experience without providing any supporting data to describe responsibilities, duties and relevance to the requirement, or reusing the same wording as the TA Form, will not be considered "demonstrated" for the purposes of the assessment. The Contractor should provide complete details as to where, when, month and year, and how, through which activities/responsibilities, the stated qualifications / experience were obtained. In situations in which a proposed resource worked at the same time on more than one

project, the duration of any overlapping time period will be counted only once toward any requirements that relate to the individual's length of experience.

- 3. The qualifications and experience of the proposed resources will be assessed against the requirements set out in Appendix C to Annex A to determine each proposed resource's compliance with the mandatory and rated criteria. Canada may request proof of successful completion of formal training, as well as reference information. Canada may conduct reference checks to verify the accuracy of the information provided. If reference checks are done, they will be conducted in writing by e-mail (unless the contact at the reference is only available by telephone). Canada will not assess any points or consider a mandatory criterion met unless the response is received within 5 working days. On the third working day after sending out the emails, if Canada has not received a response, Canada will notify the Contractor by e-mail, to allow the Contractor to contact its reference directly to ensure that it responds to Canada within 5 working days. Wherever information provided by a reference differs from the information supplied by the Contractor, the information supplied by the reference will be the information assessed. Points will not be allocated or a mandatory criteria considered as met if the reference customer is not a customer of the Contractor itself (for example, the customer cannot be the customer of an affiliate of the Contractor). Nor will points be allocated or a mandatory criteria considered as met if the customer is itself an affiliate or other entity that does not deal at arm's length with the Contractor. Crown references will be accepted.
- 4. During the assessment of the resources proposed, should the references for two or more resources required under that TA either be unavailable or fail to substantiate the required qualifications of the proposed resources to perform the required services, the Contracting Authority may find the quotation to be non-responsive.
- Only quotations that meet all of the mandatory criteria will be considered for assessment of the point rated criteria. Each resource proposed must attain the required minimum score for the point rated criteria for the applicable Resource Category. If the minimum score for any proposed resource is less than what is required, the Contractor's quotation will be found to be non-responsive.
- 6. Once the quotation has been accepted by the Project authority, the TA Form will be signed by Canada and provided to the Contractor for signature. The TA Form must be appropriately signed by Canada prior to commencement of any work. The Contractor must not commence work until a validly issued TA Form (the Task Authorization) has been received, and any work performed in its absence is done at the Contractor's own risk.

APPENDIX C TO ANNEX A RESOURCES ASSESSMENT CRITERIA AND RESPONSE TABLE

To facilitate resource assessment, Contractors must prepare and submit a response to a draft Task Authorization using the tables provided in this Annex. When completing the resource grids, the specific information which demonstrates the requested criteria and reference to the page number of the résumé should be incorporated so that Canada can verify this information. The tables should not contain all the project information from the resume. Only the specific answer should be provided.

1. Mandatory Resource Assessment Criteria:

Experienc	ce and Expertise of the Proposed Database Ac	dministrator, Level 3	
Name of p	proposed Resource:		
The Conti	ractor MUST demonstrate that the Proposed D)atabase Administrator, Le	evel 3 has:
Criteria	Mandatory Requirement	Contractor's Re	
		Demonstrated experience (Contractor to insert data)	Insert page # of resume
M.1	A minimum of 5 years' experience, within the last 10 years, in monitoring the performance and tuning of the DB2 databases within Multiple Virtual Storage (MVS) or Z Operating System (zOS) environment.		
M.2	A minimum of 5 years' experience, within the last 10 years, in designing, implementing and supporting the DB2 databases within Multiple Virtual Storage (MVS) or Z Operating System (zOS) environment.		
M.3	A minimum of 5 years' experience, within the last 10 years, working as a DB2 database administrator within Z Operating System (zOS) or Multiple Virtual Storage (MVS) environment in a Large Project*. *Large Project is defined as a database of fifteen gigabytes or more, within an On-Line Transaction Processing (OLTP) environment.		

2. Point Rated Resource Assessment Criteria:

APPENDIX D TO ANNEX A CERTIFICATIONS AT THE TA STAGE

The following Certifications are to be used, as applicable. If they apply, they must be signed and attached to the Contractor's quotation when it is submitted to Canada.

	·	
1.	CERTIFICATION OF EDUCATION AND EX	PERIENCE
prope achie Furth	Contractor certifies that all the information providual to be completed the subject work, particularly evenents, experience and work history, has been provided the Contractor warrants that every individual to be performing the Work described in the Total to the Tot	y the information pertaining to education, n verified by the Contractor to be true and accurate. idual proposed by the Contractor for the requiremen
Print	name of authorized individual & sign above	Date
2.	CERTIFICATION OF AVAILABILITY OF PE	RSONNEL
perso reaso	ons proposed in the quotation will be available to onable time from the date of issuance of the vali	to provide services under this Task Authorization, the commence performance of the work within a d Task Authorization, or within the time specified in a work in relation to the fulfillment of the requirement
Print	name of authorized individual & sign above	Date
3.	CERTIFICATION OF STATUS OF PERSON	NEL ·
certification performs the Company of the Company o	ies that it has permission from that individual to rmed under this TA and to submit his/her résun	not an employee of the Contractor, the Contractor propose his/her services in relation to the Work to be not to Canada. At any time during the Contract Perioding Authority, provide the written confirmation, signed the Contractor of his/her availability. Failure to the Contract in accordance with the General
Print	name of authorized individual & sign above	Date
4.	CERTIFICATION OF LANGUAGE - ENGLIS	ВН
The (Contractor certifies that the proposed resource(s) in response to this draft Task Authorization is/are

fluent in English. The individual(s) proposed must be able to communicate orally and in writing in English

without any assistance and with minimal errors.

Contract: 47060-181852/001/EL	Amendment No	Amendment Number:		
Print name of authorized individual &	3 sign above	Date	30 5	
5. SECURITY CLEARANCE:				

The Contractor is requested to submit the following security information for each of the proposed resources.

SECURITY INFORMATION	
Name of individual as it appears on security clearance application form	
Level of security clearance obtained	
Validity period of security clearance obtained	
Security Screening Certificate and Briefing Form file number	\

APPENDIX E TO ANNEX A NON-DISCLOSURE AGREEMENT

The Contractor is requested to submit the j proposed resources prior to commence any	following Non-Disclosure Agreement duly signed by each of the work under this contract.
1.	, recognize that in the course of my work as an employee or
subcontractor of	, I may be given access to information by or on behalf
of Canada in connection with the Work, pur- Majesty the Queen in right of Canada, repre- and Canada Border Services Agency, including parties, and information conceived, develop purposes of this agreement, information included, material, advice or any other information.	suant to Contract Serial No
or form any information described above to to know basis. I undertake to safeguard the	divulge, release or disclose, in whole or in part, in whatever way any person other than a person employed by Canada on a need same and take all necessary and appropriate measures, including ons issued by Canada, to prevent the disclosure of or access to reement.
	vided to the Contractor by or on behalf of Canada must be used nust remain the property of Canada or a third party, as the case
l agree that the obligation of this agreemen	t will survive the completion of the Contract.

 47060-181852/001/EL
 001
 609EL

This Amendment number 001 is raised to exercise Option Period 1, increase the Total Estimated Cost and extend the Contract Period.

1. At Page 1 of the Contract, under Total Estimated Cost, amend as follows:

Delete: \$ 1,966,426.00 Insert: \$ 3,932,852.00

2. At 7.6 Contract Period, delete in its entirety.

Insert:

7.6 Contract Period

- (a) **Contract Period**: The "**Contract Period**" is the entire period of time during which the Contractor is obliged to perform the Work, which includes:
 - (i) The "Initial Contract Period", which begins on the date the Contract is awarded and ends January 30, 2020; and
 - (ii) The period during which the Contract is extended, if Canada chooses to exercise any options set out in the Contract.

(b) Option to Extend the Contract:

- (i) The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to 3 additional one-year period(s) under the same terms and conditions. The Contractor agrees that, during the extended period of the Contract, it will be paid in accordance with the applicable provisions set out in the Basis of Payment.
- (ii) Canada may exercise this option at any time by sending a written notice to the Contractor before the expiry date of the Contract. The option may only be exercised by the Contracting Authority, and will be evidenced, for administrative purposes only, through a contract amendment.

## CONTENT OF A STATEMENT OF WORK (SOW)

	Database Administrator, Level 3
TITLE	
OBJECTIVE	To hire professional services to work for the Data Management Production Support section.
BACKGROUND	The Data Management and Data Warehouse Division of the Canada Border Services Agency (CBSA) require Database Administrators to support the Agency's systems initiatives. The systems are high performance, high availability, mission critical national systems, built with Websphere/Java and DB2, executing within a Z/OS environment, supporting the Agency's activities.
SCOPE	IT Professional services will be required to provide database administrator services in support of the CBSA Z/OS DB2 databases.
TASKS	<ol> <li>Define new database structures;</li> <li>Define data conversion strategy;</li> <li>Design data conversions with high volumes and continuous availability;</li> <li>Customize database conversion routines;</li> <li>Generate new database with the client;</li> <li>Work closely with the users in order to maintain and safeguard the database;</li> <li>Identify requirements for improvements to existing databases by determining users' information requirements and system performance and functional requirements;</li> <li>Develop, document and implement procedures that will ensure the accuracy, completeness, and timeliness of data stored in the database;</li> <li>Mediates and resolves conflicts among users' needs for data;</li> <li>Develop, document and implement security procedures for the database, including access and user account management;</li> <li>Advise programmers, analysts, and users about the efficient use of data;</li> <li>Maintain configuration control of the database design;</li> <li>Control and coordinate updates to the database design;</li> <li>Control and coordinate changes to the database, including the deletion of records, changes to the existing records, additions to the database;</li> <li>Develop and coordinate back-up, disaster recovery and virus protection procedures.</li> <li>Participate in the testing phases of the different deliverables;</li> <li>Participate in database walkthroughs and reviews;</li> <li>Prepare documentation on different database components of the Canada Border Services initiatives.</li> <li>Coach, mentor and train database administrators to perform any of the above.</li> </ol>
TECHNICAL ENVIRONMENT	IBM DB2 RDBMS. (Relational Database Management System)     zOS/MVS Environment     CA Database Management Solutions for DB2 (Platinum)     ERWin Data Modeler     IBM Data Studio
	6) IBM Information Server suite (Information Analyzer, Metadata

	Workbench, Business Glossary)
CLIENT SUPPORT  REPORTING REQUIREMENTS  DELIVERABLES	7) IBM InfoSphere Data Architect
CONSTRAINTS	At no time and in no way is CBSA data to be removed from CBSA sites, nor will access to or from the contractor's IT systems through the use of a session or ling (e.g VPN) be permitted.
	The contractor must comply with CBSA internal security policies, directives, standards, and guidelines at all times during the contract.
	The CBSA Data Management team will provide an appropriate workspace with access to the appropriate tools for the resources to carry out the expectations set out in this SOW.
	The contractor will be provided with a CBSA user ID, password, workstation or laptop, email address, and other materials (supporting documentation) as required in order to process, store, and/or transmit CBSA data on the CBSA network during the contract. The use of contractor IT systems is not permitted.
	Timesheets are to be provided monthly depicting hours worked on a daily basis.
REQUIREMENTS	It is the responsibility of the Contractor to facilitate and maintain regular communication with the Technical Authority. Status updates, verbal or written, may be requested by the Technical Authority over the course of the contract. Communication is defined as all reasonable effort to inform all parties of plans, decisions, proposed approaches, implementation, and results of work, to ensure that the project is progressing well and in accordance with expectations. Communication may include: phone calls; electronic mail; faxes; and meetings. In addition, the Contractor is to immediately notify the Technical Authority of any issues, problems or areas of concern in relation to any work completed under the contract, as they arise.
DELIVERABLES	<ul> <li>a) Development of technical documentation and procedures regarding database implementations, as required, documents will be provided in MS Word format. Documents will be delivered as initial drafts to the Project Authority and as final documents after any required revisions are completed;</li> </ul>
	b) Ongoing analysis of current environments and providing of recommendations where necessary for increasing and optimizing performance. The recommendations will be provided as ongoing status reports delivered to the Project Authority;
	c) Perform monitoring of query usage and recommend ways to modify tables for increased performance (e.g., adding indices, joining tables, adding foreign keys, etc.); Iterative deliverables to be provided to the Project Authority; after individual project implementations;
	d) Perform ongoing daily Data Base Administrator activities as required including defining new database structures, maintenance of data

WORK LOCATION	dictionaries, schema implementation, monitoring and performance tuning and troubleshooting; provide weekly status reports documenting these activities to the Project Authority  Canada Border Services Agency (CBSA) regular working hours are Monday to Friday, between 7 a.m. to 6 p.m. Eastern Time (Standard Workday).  Work will be performed at the CBSA location at Vanier Towers, 333 River Road, Ottawa, ON  The contractor may occasionally be required to work remotely during non-standard hours, i.e. on evenings or weekends at regular rate
LANGUAGE OF WORK	The proposed resource will be required to perform the work in English. Every individual proposed in its bid must be English and must be able to communicate orally and in writing without any assistance and with minimal errors. <a href="http://www.international.gc.ca/ifait-iaeci/test-levels-niveaux.aspx?lang=eng#b">http://www.international.gc.ca/ifait-iaeci/test-levels-niveaux.aspx?lang=eng#b</a>

## CONTENT OF A STATEMENT OF WORK (SOW)

TITLE	Database Administrator, Level 3						
OBJECTIVE	To hire professional services to work for the Data Management Production Support section.						
BACKGROUND	The Data Management and Data Warehouse Division of the Canada Border Services Agency (CBSA) require Database Administrators to support the Agency's systems initiatives. The systems are high performance, high availability, mission critical national systems, built with Websphere/Java and DB2, executing within a Z/OS environment, supporting the Agency's activities.						
SCOPE	IT Professional services will be required to provide database administrator services in support of the CBSA Z/OS DB2 databases.						
TASKS	<ol> <li>Define new database structures;</li> <li>Define data conversion strategy;</li> <li>Design data conversions with high volumes and continuous availability;</li> <li>Customize database conversion routines;</li> <li>Generate new database with the client;</li> <li>Work closely with the users in order to maintain and safeguard the database;</li> <li>Identify requirements for improvements to existing databases by determining users' information requirements and system performance and functional requirements;</li> <li>Develop, document and implement procedures that will ensure the accuracy, completeness, and timeliness of data stored in the database;</li> <li>Mediates and resolves conflicts among users' needs for data;</li> <li>Develop, document and implement security procedures for the database, including access and user account management;</li> <li>Advise programmers, analysts, and users about the efficient use of data;</li> <li>Maintain configuration control of the database;</li> <li>Perform and coordinate updates to the database design;</li> <li>Control and coordinate changes to the database, including the deletion of records, changes to the existing records, additions to the database;</li> <li>Develop and coordinate back-up, disaster recovery and virus protection procedures.</li> <li>Participate in the testing phases of the different deliverables;</li> <li>Participate in database walkthroughs and reviews;</li> <li>Prepare documentation on different database components of the Canada Border Services initiatives.</li> <li>Coach, mentor and train database administrators to perform any of the above.</li> </ol>						
TECHNICAL ENVIRONMENT	<ol> <li>IBM DB2 RDBMS. (Relational Database Management System)</li> <li>zOS/MVS Environment</li> <li>CA Database Management Solutions for DB2 (Platinum)</li> <li>ERWin Data Modeler</li> <li>IBM Data Studio</li> <li>IBM Information Server suite (Information Analyzer, Metadata</li> </ol>						

	Workhanah Dusinasa Classawa
	Workbench, Business Glossary) 7) IBM InfoSphere Data Architect
	r) IBM Intesphere Butter Hemister
CONSTRAINTS	At no time and in no way is CBSA data to be removed from CBSA sites, nor will access to or from the contractor's IT systems through the use of a session or ling (e.g VPN) be permitted.
	The contractor must comply with CBSA internal security policies, directives, standards, and guidelines at all times during the contract.
CLIENT SUPPORT	The CBSA Data Management team will provide an appropriate workspace with access to the appropriate tools for the resources to carry out the expectations set out in this SOW.
	The contractor will be provided with a CBSA user ID, password, workstation or laptop, email address, and other materials (supporting documentation) as required in order to process, store, and/or transmit CBSA data on the CBSA network during the contract. The use of contractor IT systems is not permitted.
	Timesheets are to be provided monthly depicting hours worked on a daily
REPORTING	basis.
REQUIREMENTS	• It is the responsibility of the Contractor to facilitate and maintain regular communication with the Technical Authority. Status updates, verbal or written, may be requested by the Technical Authority over the course of the contract. Communication is defined as all reasonable effort to inform all parties of plans, decisions, proposed approaches, implementation, and results of work, to ensure that the project is progressing well and in accordance with expectations. Communication may include: phone calls; electronic mail; faxes; and meetings. In addition, the Contractor is to immediately notify the Technical Authority of any issues, problems or areas of concern in relation to any work completed under the contract, as they arise.
DELIVERABLES	<ul> <li>a) Development of technical documentation and procedures regarding database implementations, as required, documents will be provided in MS Word format. Documents will be delivered as initial drafts to the Project Authority and as final documents after any required revisions are completed;</li> </ul>
	b) Ongoing analysis of current environments and providing of recommendations where necessary for increasing and optimizing performance. The recommendations will be provided as ongoing status reports delivered to the Project Authority;
	c) Perform monitoring of query usage and recommend ways to modify tables for increased performance (e.g., adding indices, joining tables, adding foreign keys, etc.); Iterative deliverables to be provided to the Project Authority; after individual project implementations;
	d) Perform ongoing daily Data Base Administrator activities as required including defining new database structures, maintenance of data

WORK LOCATION	<ul> <li>dictionaries, schema implementation, monitoring and performance tuning and troubleshooting; provide weekly status reports documenting these activities to the Project Authority</li> <li>Canada Border Services Agency (CBSA) regular working hours are Monday to Friday, between 7 a.m. to 6 p.m. Eastern Time (Standard Workday).</li> <li>Work will be performed at the CBSA location at Vanier Towers, 333 River Road, Ottawa, ON</li> <li>The contractor may occasionally be required to work remotely during non-standard hours, i.e. on evenings or weekends at regular rate</li> </ul>
LANGUAGE OF WORK	The proposed resource will be required to perform the work in English. Every individual proposed in its bid must be English and must be able to communicate orally and in writing without any assistance and with minimal errors. <a href="http://www.international.gc.ca/ifait-iaeci/test_levels-niveaux.aspx?lang=eng#b">http://www.international.gc.ca/ifait-iaeci/test_levels-niveaux.aspx?lang=eng#b</a>
